

SHARPERTEKTM

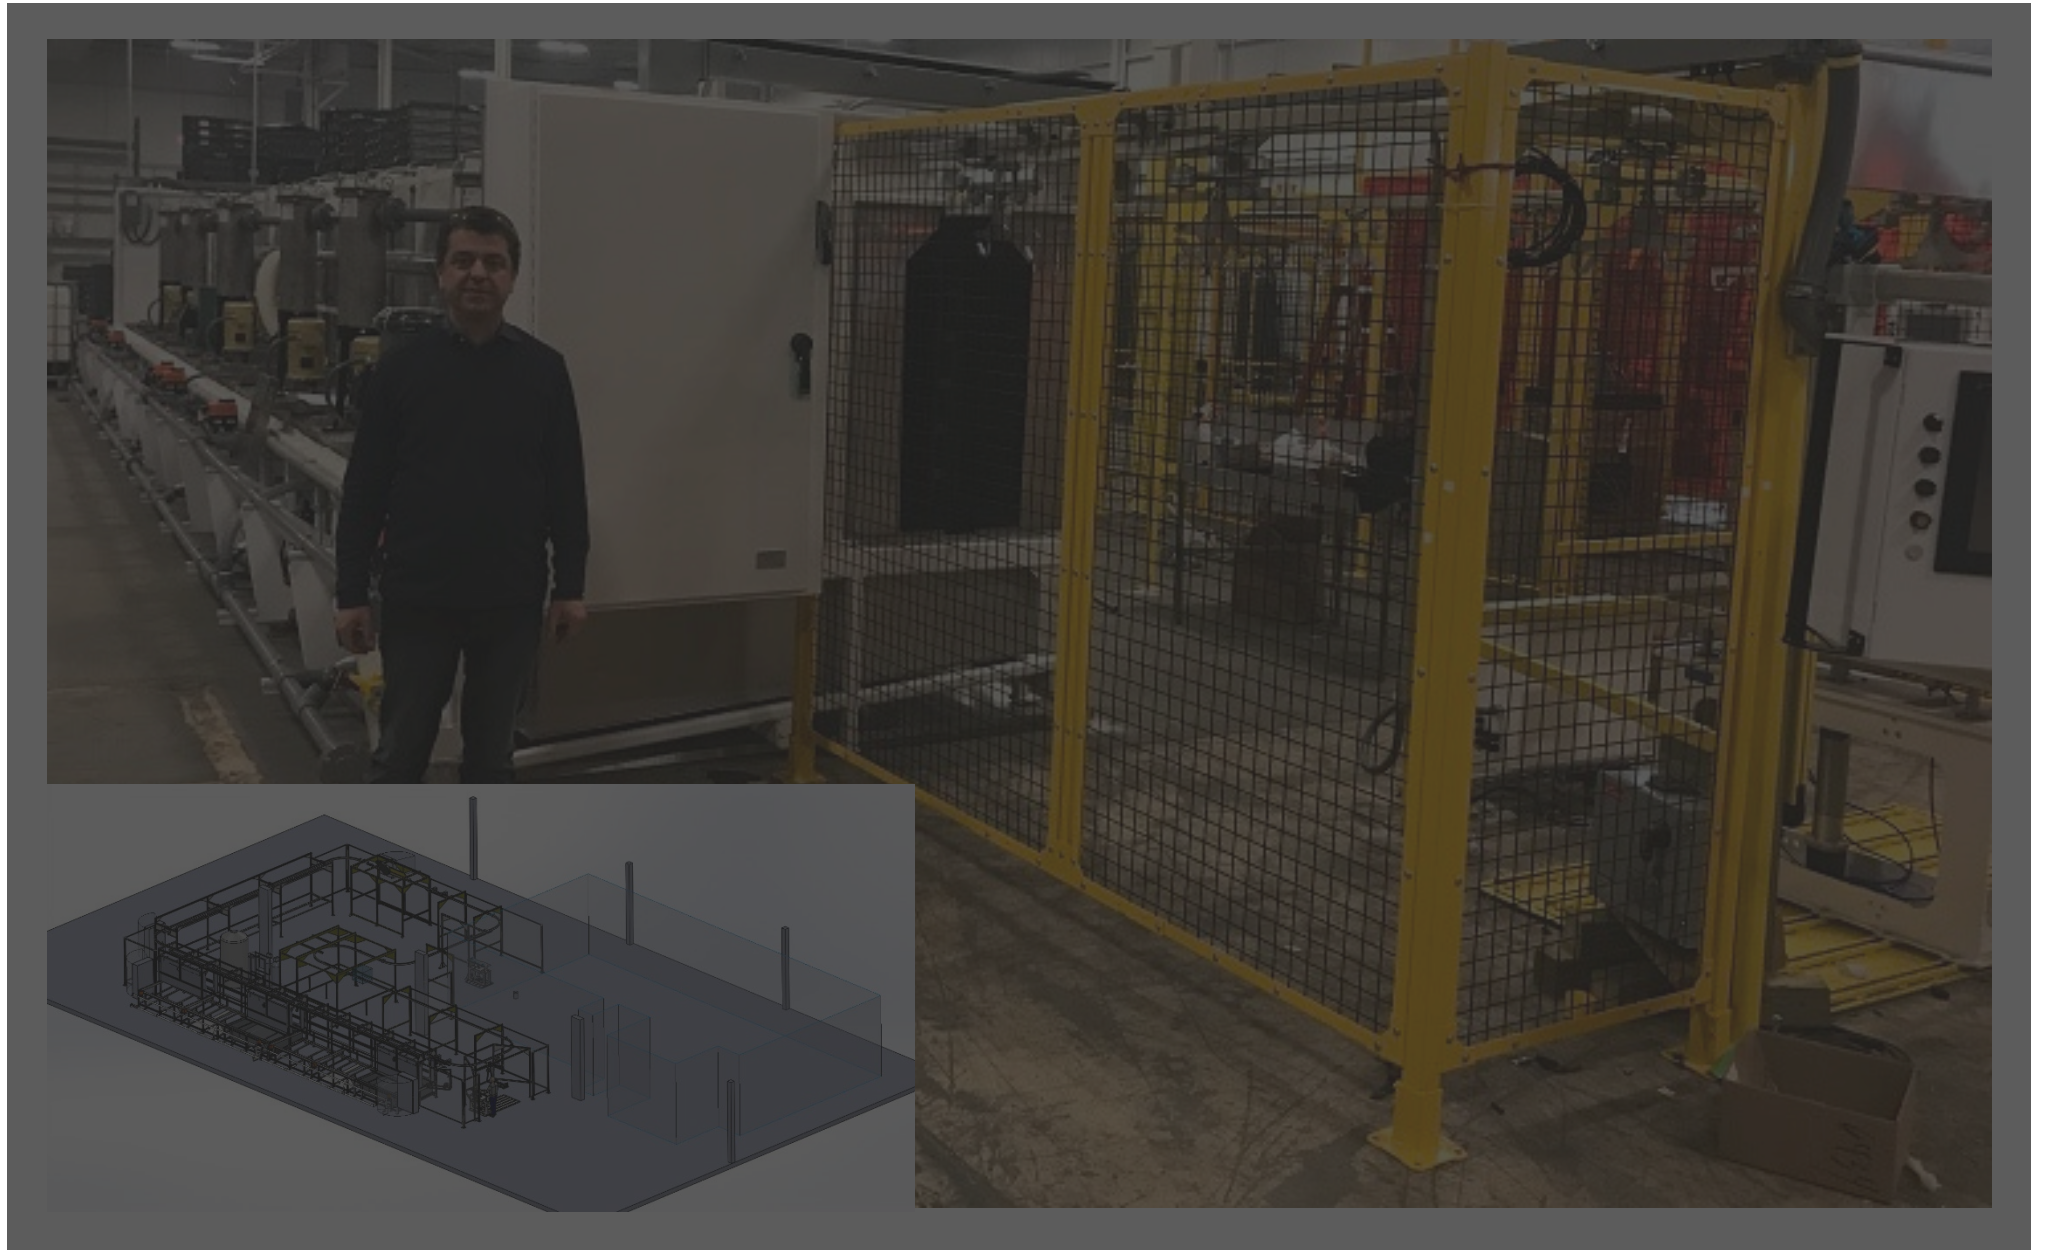

Welcome To SharperTek

A premier manufacturer of parts cleaning systems, automated tank lines, and Ultrasonic plastic welding equipment. With a vertically integrated project leader, SharperTek can design, build, install, train, and service all equipment provided. We focus on providing custom engineered turnkey systems for any parts cleaning, surface treatment, coating, or plastic welding process. Each system is designed to meet customer quality, timing, and cost expectations. We remain flexible to changing needs throughout the design and build process ensuring our turnkey solution is ideal for each customers unique requirements.

About us

A company overview

SharperTek
About Us

Our Forward Vision

Safety and Quality First; Productivity, and Continuous Improvement always!

Be The Best Company

SharperTek was established in June 1998 by Gus Nasralla

Design, Engineer, & Build

Our current operation employs over 25 Engineers & Technicians

Equipment Manufacturing

Building 1000's of machines since 2004

Custom Development

50% of sales are derived from understanding custom needs.

Project Management

Process Development, Factory layout, Quality Control, Just in Time

OUR SERVICE

Serving countless companies and industries since 1998.

Aerospace

Space-X, Nasa, United Launch,
Lockheed Martin, Cadence, Collins

Pharmaceutical

Lannett, Millipore
Sigma, Covidien, Abbott

Military Defense

Navy, Air Force, Marines, Army, Coast
Guard, General Dynamics

Industrial

Siemens, 3M, Briggs and Stratton,
Wacker, Olin Chlor

Automotive

Gestamp, TI Automotive,
Magna, Yeng Feng, Ford

Medical

Hospitals, Surgery centers,
Doctors + Dental

Press Brakes

CNC Mill

Mig & Tig Welding

CNC Lathe

Laser Cutter

Overhead Cranes

Sheer

Forklifts and Docking

Pemserter / Spot Welder

Design | Manufacture | Assemble | Plumb | Wire | Program | Test | Onsite Assembly | Training | Service + Support

Manufactured EQUIPMENT

Ultrasonic Cleaners

Wide Range from Benchtop Units
to Largest industrial Multi Tank Systems

Surface Treatment Systems

Clean, passivate, etch many
different components automatically

Conveyor Tank Lines

Monorail/Mesh Belt/Roller/Vertical Chain
Drying Ovens/Coating Lines

Automated Gantry

Multitank automated
systems

Agitation Wash

Mechanical agitation via
pneumatic, Liquid agitation
via Eductors

Cleanliness Testing

Particle Size, NVR, surface quality

Manufactured EQUIPMENT

CNC Waterjet Debur

High Pressure Multi Axis,
Custom Fixtures & Pallets

Plastic Welders

Ultrasonic Handheld, Benchtop Press,
Automated Welding cells, Mask Machines

Vacuum Chambers MFST

Vacuum Drying, Spray wash,
Solvent Cleaning

Manifold & Tube Cleaning

Utilizing Proprietary
Binary Aerospace Flushing
Sequence, Spray under Immersion

Vapor Degreasers

Refrigerated
Vapor Degreasers

Remote Monitoring & Data Logging

Performance Metrics, Analytics,
PLC-VPN-USER. SCADA Systems

Thank You!
